

Koko

Design: Tollgard & Castellani

Description

Koko is an elegant ottoman, designed as the natural complement to the lounge chair of the same name. It embodies the perfect synthesis of rigidity and ergonomics, strength and lightness, design and functionality. The structure, crafted from solid Canaletta walnut, highlights Porada's exceptional woodworking craftsmanship, while the anatomical shell—moulded with a layer of polyurethane and fixed to the wooden frame—ensures both durability and comfort.

The upholstery can be customized in the full range of fabrics and leathers from the Porada collection, offering endless possibilities for personalization. Refined black chrome metal feet complete the piece with a contemporary and stylish touch.

A true expression of luxury Italian furniture, Koko combines elegance, sophistication, and comfort, revealing a design philosophy that celebrates fine materials and timeless craftsmanship.

The Koko ottoman is the perfect companion to the Koko lounge chair, enhancing its refined silhouette and offering an additional layer of comfort and versatility for contemporary living spaces.

Made in Italy.
