

Tylsa

Design: Danilo Radice

Description

Like all pieces in the Tylsa collection, the Tylsa sideboard celebrates soft, rounded forms and Porada's signature woodworking craftsmanship. Entirely crafted from solid Canaletta walnut or ash, the structure rests on a refined metal base that lends a sense of lightness and sophistication to the overall design.

The sideboard features four hinged doors, revealing three internal compartments equipped with clear glass shelves that combine practical storage with visual transparency. The top surface, available in wood or marble in the finishes of the collection, enhances the piece's material richness and versatility.

Subtle yet distinctive details—such as the recessed metal handles—demonstrate Porada's meticulous attention to detail and ensure the smooth opening of the central doors. The result is a timeless, sculptural piece that harmoniously blends functionality, elegance, and contemporary Italian design, ideal for both living and dining spaces. Made in Italy.

Finishes & Materials

Top: Wood or Marble.

Frame: Walnut or Ash wood.

Handles & Base: Metal.

Internal Shelves: 3/8" thick glass.

Please note: Marble tops are always supplied with polyester matt protection. They are also available in natural glossy finish with oil-water repellent protection on demand and without any surcharges (except for Brown Emperador Dark & Sahara Noir)
