

Arcad3

Design: Pow3r

Description

The Arcad3 ottoman is a bold tribute to gaming culture and its evolution from classic arcades to modern home setups. Inspired by the iconic arcade buttons of the 1980s, this multifunctional storage pouf transforms a symbol of nostalgia into a piece of contemporary design that bridges the real and virtual worlds.

Crafted with a two-part construction, Arcad3 features a soft, mass-colored polyurethane seat and a polyethylene base, both available in black, red, or blue. Beneath its sculptural form lies a spacious hidden storage compartment, combining playful aesthetics with functional versatility. Optional pivoting wheels enhance mobility, making it an adaptable solution for living spaces, gaming rooms, and creative environments. Suitable for indoor and outdoor use. Made in Italy.
