

Koishi

Design: Naoto Fukasawa

Description

Inspired by the Zen purity of Japanese gardens, the Koishi ottoman captures the essence of a stone (“ishi” in Japanese) a timeless symbol of balance and serenity. From the simplicity of a pebble, Fukasawa has sculpted a contemporary pouf that embodies both natural harmony and modern design expression.

Crafted from painted fiberglass, this organic, pebble-shaped ottoman blends soft, fluid contours with vibrant, refined color options. The result is a piece that feels at once sculptural and understated, an object that can serve as seating, accent, or centerpiece in any space. Designed for indoor and outdoor use, Koishi unites minimalism, material innovation, and poetic form. Made in Italy.

Dimensions

44”7/8W x 35”3/8D x 15”H
