

MT3

Design: Ron Arad

Description

The MT rocking lounge chair redefines the concept of form and void. Its name, "MT", pronounced empty, captures the chair's sculptural essence, where a hollowed-out volume reveals a striking two-tone interior that contrasts elegantly with its smooth exterior. Crafted from premium polyethylene monobloc through a double rotational molding process, this lounge chair showcases exceptional craftsmanship and technological precision.

The sand white exterior harmonizes with an inner surface in deep black or vivid red, creating a captivating interplay of light, color, and material. With its fluid silhouette and gentle rocking motion, this piece blends artistic innovation with ergonomic comfort. Designed for indoor and outdoor use. Made in Italy.

Dimensions
