

Across

Design: Pio & Tito Toso

Description

Across is a versatile and contemporary suspension lamp that brings a bold, graphic presence to any interior. Its three interconnected linear axes, available in two sizes, allow for customizable compositions with varying levels of visual impact. The lamp features an horizontal extruded aluminum body with an integrated optical system for direct lighting, complemented by two hinged elements that enable installation from either the ceiling or the floor.

Finished in black aluminum with a sleek polycarbonate diffuser, Across combines minimalist design with high-performance illumination. Ideal for modern linear suspension lighting and architectural interior design, Across adds clarity, character, and flexibility to residential and professional spaces. Made in Italy.
