

## Mini Barcelona

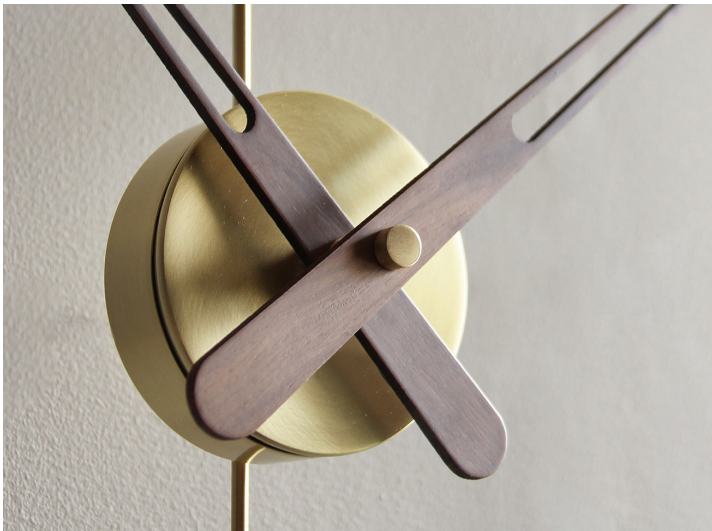

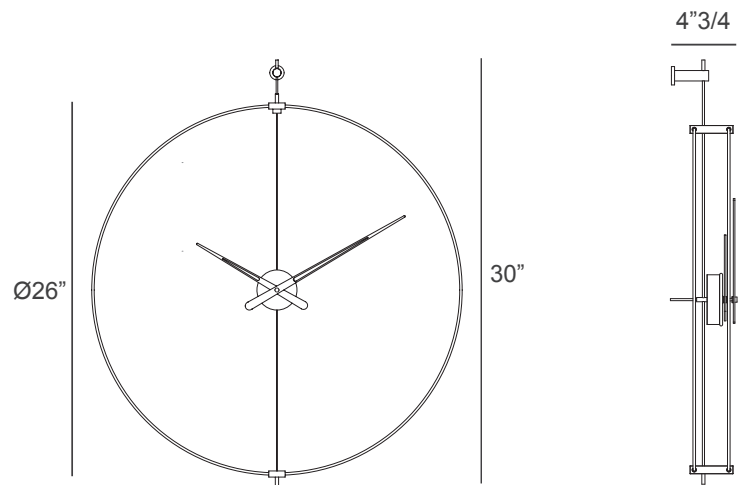

### *Description*

Mini Barcelona reinterprets Nomon's most iconic model in a more compact and versatile size, ideal for smaller spaces or compositions that call for subtle yet distinctive wall accents. Its double ring in black fiberglass, together with walnut components and delicate metal details, maintains the visual identity of the original Barcelona while introducing a lighter and more agile presence. This reduced format preserves the same modernist spirit, purity of form, and elegant simplicity that made the design a classic. Part of the Aros Collection, Mini Barcelona effortlessly brings personality, balance, and minimalist sophistication to any room.

Mechanism: German UTS.
