

Mini Bilbao

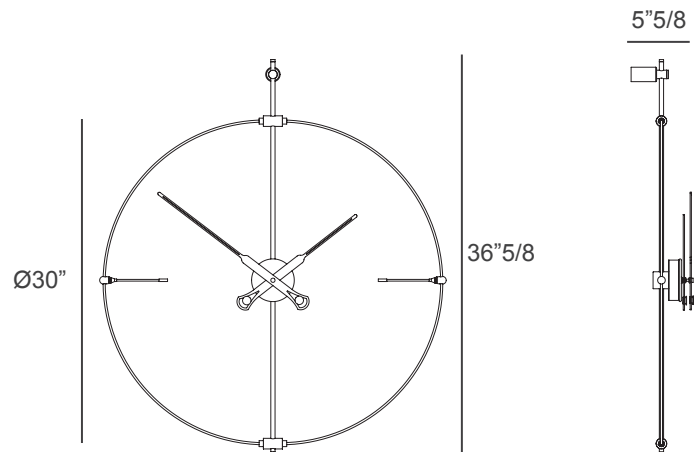

Description

Mini Bilbao Premium raises the original Mini Bilbao to a new level of refinement, subtle glamour, and high-end design. Its carefully curated combination of wooden elements and elegant details enhances its presence, giving the clock a warm radiance and a distinctly luxurious attitude. The fiberglass ring becomes the signature feature of this version, adding a premium sheen that enriches the silhouette with depth and sophistication.

Like the full-size premium edition, this model also introduces walnut and oak box options, expanding the aesthetic possibilities while maintaining Nomon's signature balance of simplicity and luxury. Part of the Premium Collection, the Mini Bilbao Premium reimagines one of the brand's classics with heightened elegance, offering a chic, designer piece ideal for modern, contemporary, and upscale interiors.
