

Ombra

Description

Ombra introduces a completely new typology within contemporary design: the lamp clock.

True to the brand's aesthetic language, this piece transcends timekeeping and becomes a sculptural source of atmosphere.

Its black anodized aluminum ring frames an integrated LED lighting system that casts a warm, intimate glow, enriching the room with depth and contrast.

By blending ambient lighting with minimalist wall art, Ombra creates refined, cozy environments ideal for modern interiors that value comfort, subtle sophistication, and emotional lighting.

Available in a wall-mounted model, which requires an electrical wall connection, or in a plug-in version.

Finishes & Materials

Structure: Metal.
