

# Matics 1

*Design: Gabriele & Oscar Buratti*

## *Description*

The Matics 1 is a versatile Italian-made storage unit crafted in canaletta walnut. It can be configured open or with Stopsol super silver light glass doors framed in grey pewter metal, and paired with back panels in wood, textured bronze metal, or Cuoio for personalized combinations. Usable as a wall-mounted or free-standing piece, it offers shelves, an open compartment, and optional drawers with wooden or Cuoio fronts. Integrated dimmable LED lighting—controlled by remote or app—highlights its refined mix of materials. Installation requires an electrical outlet behind or beside the frame, and the unit includes universal-voltage cables and plugs.

## *Finishes & Materials*
