

Matics TV

Design: Gabriele & Oscar Buratti

Description

The Matics TV cabinet is a refined Canaletta walnut piece that blends elegance with practical design. Its wooden flap doors feature alternating grain inlays for a subtle graphic effect, while a pewter-finished metal base adds lightness. The cabinet can be finished with a wooden or marble top to suit different styles. Thoughtful details, such as a rear cable-management cut-out, ensure a clean setup for media devices. For a cohesive look, it can be paired with a matching Canaletta walnut TV stand panel, also equipped with cable management. Made in Italy.
