

Sansiro Round 1 Table

Design: Meneghello Paoletti

Description

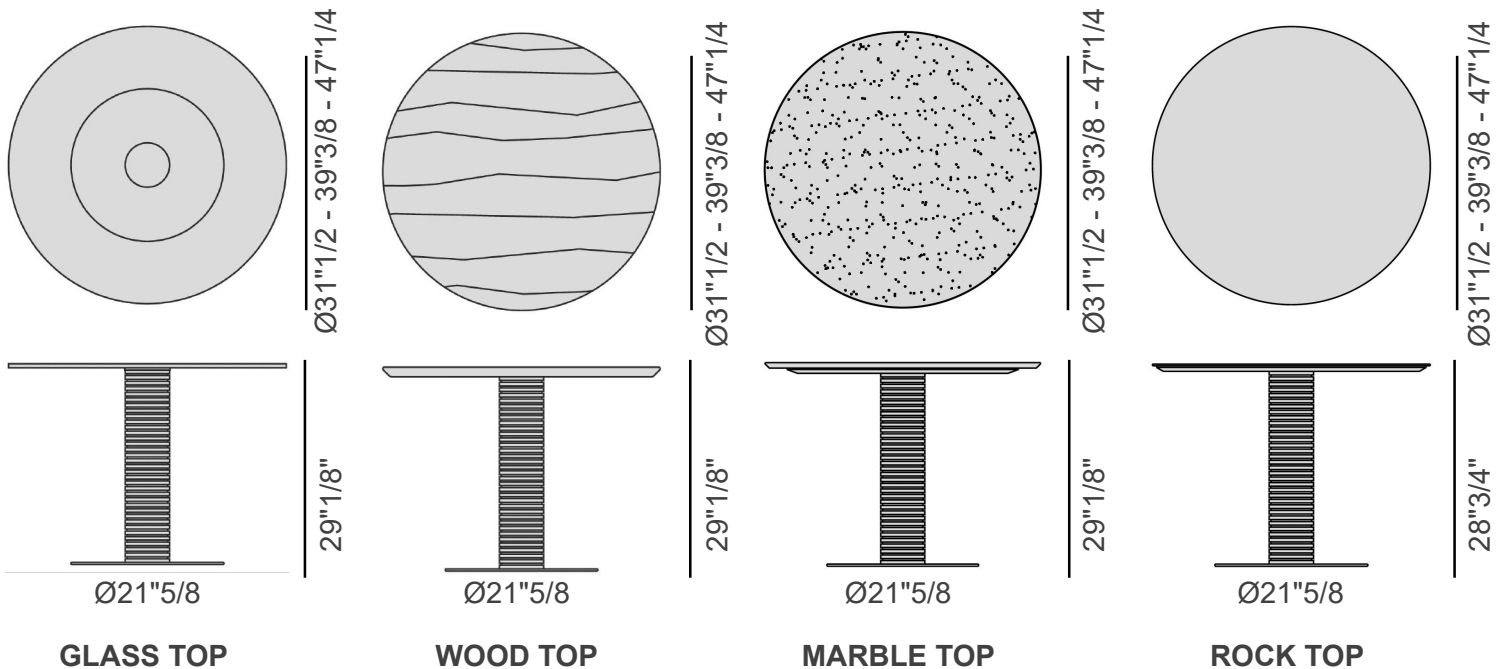

This Sansiro round dining table is available in four versions, each defined by a single central turned leg crafted from four solid canaletto walnut pieces mounted on a metal plate in Bronzoro finish. The visible joints in the leg reveal the connection between the wooden elements and emphasize the craftsmanship of the design.

The first version features a clear glass top with a thickness of 5/8 inches, allowing the sculptural walnut leg to remain fully visible and become the centerpiece of the table. The second version includes a wooden top with a thickness of 1"3/8, creating a warm, coordinated appearance that highlights the natural character of canaletto walnut. The third version offers a marble top with a thickness of 3/4 inches, supported by a black matt lacquered plate that adds contrast while ensuring stability. The fourth version features a Rock top with a thickness of 1/4 inch, also supported by a black matt lacquered plate, providing a durable and contemporary alternative within the same refined structure.

Each option maintains the same elegant design with its distinctive turned leg and detailed workmanship. Made in Italy.

Sansiro Round 1 Table

Design: Meneghello Paoletti
