

Savio

Design: David Dolcini

Description

The Savio Writing Desk, designed by David Dolcini, brings a refined vintage touch to Porada's collection. Inspired by classic Danish secretaire furniture, it features a Canaletta walnut frame with natural maple inserts for a warm, structured look. While the exterior is clean and linear, the interior contrasts with bright maple and Cuoietto Invecchiato details, creating a rich mix of tones and textures.

Thoughtfully functional, the desk includes multiple storage compartments, a flap desk-top, recessed power sockets, LED-lit central shelves, and metal-accented side shelves. Combining vintage inspiration with modern practicality, the Savio Desk is ideal for bedrooms or living spaces seeking both charm and contemporary elegance. Made in Italy.
