

Softbay Bed Max

Design: Giuseppe Viganò

Description

The Softbay collection is defined by its gentle, flowing lines and includes a bed, armchair, and modular sofa. Softbay Bed Max extends this family with a generously scaled double bed created to bring warmth and individuality to a wide range of interior settings. Its signature feature is the set of four feet in solid canaletto walnut or ash, which wrap gracefully around the padded structure and give the bed its instantly recognizable look.

The bed features a removable cover for both the headboard and the bed base, available in all fabrics of the collection. Its inner structure is crafted from poplar plywood and solid fir, paired with crush-proof polyurethane padding in different densities for lasting comfort and support. The frame is built using birch plywood and solid fir, enriched with polyurethane foam to refine the bed's soft, enveloping silhouette.

Designed not only for restorative sleep but also as a customizable design statement, Softbay Bed Max combines Italian craftsmanship with functional elegance. Made in Italy.
