

## Softbay Sofa

*Design: Giuseppe Viganò*

### *Description*

The transitional Softbay Sofa features soft, enveloping lines and gently rounded surfaces that define the entire collection. Its solid Canaletta walnut end-feet, shaped like a paper clip, support and frame the piece while giving it a distinctive character. Upholstered in fabrics from the collection, the sofa adapts to a wide range of living room styles. The Bouclage fabric: a blend of cotton, linen, and wool, enhances its soft, sculptural form particularly well. Removable cover in fabric only (NO Nabuk).

### *Finishes & Materials*
