

Tillow

Design: Tollgard & Castellani

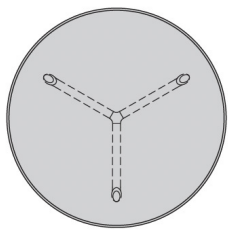

Description

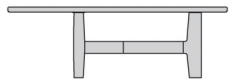

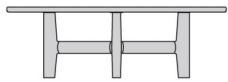

Tillow is a family of round side and coffee tables offered in three diameters of 21"5/8, 33"1/2, and 43"1/4. Each diameter is paired with its own height, creating a sense of movement and visual rhythm within a living space. The tables feature a solid canaletto walnut base that supports tops crafted in glass, marble, or cuoietto leather. The smoked glass option, made with a 1/2 inch thickness and a shaped edge, provides a clear view of the beautifully constructed joints forming the leg structure. For a different look or tactile feel, the tops can also be made in carved marble or cuoietto leather, available in all colors of the collection to complement a wide range of interior styles. Each table can be purchased individually or arranged as a group, allowing for versatile compositions that meet varied functional needs while creating a balanced and harmonious atmosphere in the living area. Made in Italy.
