

Polaris Steel

Design: Alessandro La Spada

Description

The Polaris Steel chandelier available in three configurations: 8-light, 14-light, or double crown with 22 elements. Composed of curved aluminum modules—polished on the outside and finely satin-brushed on the inside—anchored to a central support ring with integrated LED diffusers. Suspended by adjustable steel cables, the system combines visual lightness with sculptural presence. Offered in a curated selection of metal finishes.

Finishes & Materials

Structure: Metal.
