

Voluptas

Design: Studiopepe

Description

Swivel upholstered chair with a plywood structure and seat in differentiated-density polyurethane, finished with acrylic fiber. The backrest, composed of three individually upholstered curved cylindrical bands, forms a continuous and well-defined profile. The stainless steel base, featuring a turned central leg and integrated footrest, is height-adjustable via a gas-lift mechanism. A side-mounted bag hook knob is available as an optional accessory.

Finishes & Materials

Cover: Fabric or leather.

Base: Metal.
