

Piuma

Design: Lanzavecchia + Wai

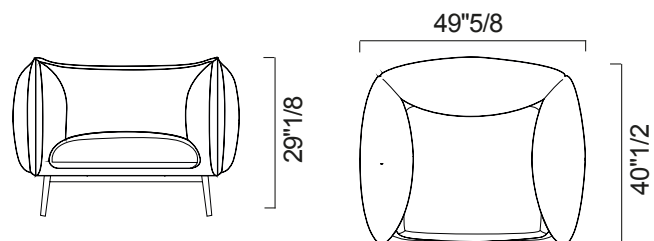

Description

The Piuma Lounge Chair combines advanced technical features with a lightweight aesthetic. The powder-coated aluminum frame provides a durable skeleton for the soft upholstery, which is covered in high-performance outdoor fabric available in three nuances with refined highlighted stitching. To ensure longevity in exterior environments, the chair utilizes an osmotic membrane that allows it to withstand prolonged outdoor exposure. Its standout feature is a versatile reclining mechanism that adjusts the backrest and armrests, allowing the chair to function as a modular lounge seat or a flat daybed. Proudly Made in Italy.

Dimensions

Size: 49"5/8W x 40"1/2D x 29"1/8H
