

Eiffel

Design: Signorotto+Partners

Description

The Eiffel shaped table with dual bases embodies the essence of high-end Italian design, combining architectural sophistication with exceptional stability. Its elongated, sculptural top rests upon two crossed-leg structures composed of thin, precisely angled metal blades. These carefully arranged supports offer generous legroom and an airy sense of openness, while visually grounding the table with a bold yet elegant presence.

Perfect for spacious dining areas or design-forward environments, the dual-base composition enhances balance and proportion, transforming a functional dining table into an artful, contemporary centerpiece. The dynamic convergence of the metal blades brings refined movement to the base, elevating an element often overlooked and instead turning it into a highlight of the design.

The shaped fixed version is ideal for those seeking a luxurious statement table with generous seating capacity, premium finishes, and a masterful blend of craftsmanship and innovation—hallmarks of Dallagnese's iconic approach to furniture making.

Made in Italy.

Finishes & Materials

Top: Stoneware matched with glass or CARB-02 certified particle board panel with a Matt Lacquered or Wood veneered surface. In the veneered version the lower side plus edge is lacquered. Inclined perimeter edge 30°.

Base: Metal or Matt Lacquered.
