

Glass Up

Design: R&D Dallagnese

Description

The Glass Up cupboard is a sophisticated storage solution that interprets Italian design through transparency, balance, and precision. With its metal frame, wooden structure, and transparent glass doors, it stands out as a statement piece within modern luxury living room furniture, offering both display and storage in a refined vertical composition.

Designed with two glass doors and three internal glass shelves, the Glass Up cupboard ensures an orderly and visually light interior, ideal for showcasing objects while maintaining a clean, contemporary look. The doors are fitted with concealed hinges that allow a full 270-degree opening, providing exceptional ease of use. Integrated soft-close technology with magnet and slow-motion control ensures a silent and fluid closing movement, enhancing daily comfort and long-term durability.

The aluminum-framed glass doors, feature side profiles that extend outward to form elegant vertical handles, reinforcing the cupboard's minimalist yet distinctive character. Internal built-in LED lighting is offer as optional, and for added refinement, the interior back panel can be upholstered in regenerated hard leather, available in multiple finishes, introducing warmth and tactile richness. This cupboard is ideal for luxury modern living room furniture compositions where design clarity and material sophistication are key. Made in Italy.
