### *Description*

Kiri is a sophisticated long table that brings architectural elegance and modern refinement to any interior. Its rectangular fixed top offers clean, generous proportions, making it ideal for contemporary dining rooms, upscale meeting spaces, or refined open-plan environments. Featuring a 30° perimeter sloping edge, it presents a subtle touch of craftsmanship and stylistic personality.

The table is anchored by two central legs composed of irregularly pitched metal rods arranged in a sculptural cross pattern. This artistic structure creates a striking play of lightness and stability, giving the rectangular version a bold yet harmonious presence.

Every detail speaks to high-end craftsmanship: premium materials, elegant finishes, and a balanced design language that merges functional durability with expressive style. As a centerpiece, Kiri enriches the room with its minimalist geometry and enduring sophistication.
