

Marlene

Design: R&D Dallagnese

Description

Marlene is a modern solid wood cupboard conceived as a statement piece for contemporary living spaces, where craftsmanship, material quality, and understated luxury take center stage. Its clean lines and balanced proportions make it a natural fit within modern luxury living room furniture settings.

The four-door cupboard is distinguished by its canneté front doors, made from solid wood panels precisely milled into fine vertical rods in relief. This refined surface treatment gives the cupboard a tactile and visual richness, emphasizing the natural grain of the wood while introducing a subtle decorative character. Available in all Dallagnese wood finishes, the canneté design transforms the doors into a continuous, elegant façade.

Thanks to meticulous detailing, the frame visually recedes, allowing the textured doors to define the overall form with clarity and harmony. Behind the four hinged doors, the cupboard offers a spacious and well-organized interior, ideal for storing tableware, accessories, or everyday objects. With its combination of artisanal detailing and contemporary restraint, the Marlene cupboard embodies the essence of high end living room furniture with a timeless, modern appeal.

Made in Italy.
