

Marlene

Design: R&D Dallagnese

Description

Marlene is a modern solid wood sideboard that celebrates the authenticity of fine materials and the precision of Italian craftsmanship. Designed for refined contemporary interiors, it stands out for its architectural presence and its ability to elevate modern living room furniture with warmth, texture, and timeless elegance.

The defining feature of the Marlene sideboard is its canneté front doors, crafted from solid wood panels meticulously machined into slender vertical rods in relief. This sophisticated workmanship creates a rich play of light and shadow across the surface, enhancing the natural depth of the wood. The canneté detailing adds a distinctive decorative rhythm while preserving a clean, modern aesthetic.

Artistic milling and careful finishing allow the frame to visually disappear, leaving the doors to define the volume with continuity and balance. Available with two, three, or four doors, the Marlene sideboard offers generous internal storage while maintaining a sculptural and elegant profile, making it ideal for high end living room furniture compositions where design and functionality are equally important.

Made in Italy.
