

Radar

Design: Signorotto+Partners

Description

Radar is a distinctive table defined by its metal frame and central tie rods, echoing the engineered rhythm of lattice structures while reinterpreting the proportions of the historic medieval “fratino table.” The result is a refined balance between industrial precision and contemporary elegance, ideal for interiors that favor clean geometry and structural character.

Its slim rectangular fixed top emphasizes linearity and sharp profiles, reinforcing the table’s architectural look. The combination of thin surfaces with the tensioned metal structure creates a visual dialogue between weight and lightness, making Radar an exceptional focal point in curated contemporary furniture environments. Versatile in scale and offered in multiple sizes, the rectangular version integrates naturally into modern luxury living room furniture and high end living room furniture settings where a distinctive centerpiece is required.

Made in Italy.

Finishes & Materials

Top: Stoneware with glass, Up Surfaces or CARB-02 certified wood particle board lacquered or wood veneered and painted.

Perimeter Edge: Slanted 30° with Matt Lacquered underside.

Base: Metal or Lacquered Base.
