

## Radar

*Design: Signorotto+Partners*

### *Description*

The shaped Radar table reinterprets the same engineered framework with a softer, more fluid silhouette. Its central tie-rod metal structure is paired with an elegant oval fixed top, creating a harmonious blend of balance and movement. This version maintains the technical essence of the original design while introducing a more welcoming and sophisticated aesthetic.

The curved geometry brings a warmer presence to living spaces, making it particularly suited for luxury home furniture arrangements that seek refinement without rigidity. With its thin top and sculptural base, the shaped version offers an elevated visual identity, fitting seamlessly into designer furniture compositions and modern contemporary living room furniture schemes that value timeless form and artisanal detail.

Made in Italy.

### *Finishes & Materials*

**Top:** Stoneware with glass.

**Base:** Metal or Lacquered Base.
