

Slim

Design: R&D Dallagnese

Description

Slim is a modern sideboard distinguished by its clean geometry and a solid base that grounds the design with a more architectural and contemporary presence. The continuous base replaces traditional feet, giving the piece a compact, balanced silhouette that integrates seamlessly into modern living room furniture environments while enhancing a sense of visual stability.

The linear design is reinforced by a push-pull opening system that removes the need for handles, allowing the surfaces to remain pure and uninterrupted. Inside, the sideboard is carefully organized with functional drawers and refined glass shelves, creating an elegant interplay between solidity and lightness. This internal layout ensures practical storage while maintaining a sophisticated, orderly appearance.

With its restrained elegance and precise detailing, Slim adapts naturally to modern contemporary living room furniture settings as well as more luxurious interiors. The combination of a strong base, minimalist lines, and high-quality finishes makes it an ideal solution for high end living room furniture compositions that value discretion, functionality, and timeless design.

Made in Italy.

Finishes & Materials

Structure: CARB-02 certified wood particle board panels. Interior in Textured finish.

Top: Wood or Stoneware.

Fronts: Wood with Matt/Glossy Lacquered, Up Surfaces, Wood or Textured finishes.

Internal Shelves: Glass.

Lama Base: Metal or Matt Lacquered finishes.

Please note: In the wood finish, the grain direction of the drawer fronts is perpendicular to the grain direction of the door fronts.
