

Smooth

Design: Matteo Zorzenoni

Description

Smooth is an elegant and contemporary extendable dining table, designed to combine refined craftsmanship with everyday functionality. Its solid wooden legs, crafted as single sculpted pieces, rise gracefully to meet the rectangular tabletop and integrated frame in a seamless, precision-fit junction. This construction not only enhances the table's visual lightness but also ensures long-lasting stability and structural integrity.

The two extension leaves, positioned on the same side, allow the table to expand effortlessly while preserving its harmonious proportions, clean silhouette, and the overall comfort of diners. Smooth is a versatile and timeless piece that brings warmth, sophistication, and practicality to modern interiors, fitting perfectly in dining rooms, open-plan living spaces, and contemporary homes seeking natural materials and minimalist design.

Made in Italy.
