### *Description*

The Supernova round coffee table represents the most dynamic and expressive interpretation of the collection. Designed to function as both a coffee table and an accent piece, it is available with a round wooden or stoneware top and can be enhanced by an integrated swivel tray. This tray is fixed above the surface and fully upholstered in hard leather, available in the refined color palette of the Dallagnese range, adding a tactile and sophisticated layer to the design.

The round shape encourages fluid movement within the space, while the metal base maintains a strong architectural presence. The legs extend upward to meet the top, proudly displaying their spherical metal heads as a distinctive signature detail. Functional yet elegant, the round Supernova coffee table is ideal for enhancing the center of the room or for creating layered compositions when paired with other tables from the same family.

Made in Italy.
