

# Supernova

*Design: Signorotto + Partners*

## *Description*

Supernova is a wooden sideboard defined by a soft, linear modernity that combines refined proportions with elegant detailing. Its design is characterized by gently rounded sides and slender, tapered metal rod legs set outward, finished with distinctive rounded heads that remain deliberately visible. These sculptural elements give the piece a light yet sophisticated presence, perfectly suited to contemporary interiors.

The sideboard is available with two or three doors and can be paired with either a wood or stoneware top, allowing it to adapt seamlessly to different aesthetic preferences. The top-socket door opening system ensures a clean, uninterrupted façade, enhancing the sideboard's minimalist and modern character. Inside, Supernova features wooden shelves and a refined interior in Textured finish, while the back panel matches the exterior structure, ensuring visual continuity from every angle.

Thanks to this carefully finished back, the Supernova sideboard can be confidently placed at the center of the room, becoming a true focal element within modern living room furniture arrangements. Its balanced combination of softness, precision, and high-quality materials makes it an ideal choice for high end living room furniture and refined luxury living room furniture sets with a contemporary Italian sensibility. Made in Italy.
