

# Supernova

*Design: Signarotto+Partners*

## *Description*

The Supernova square coffee table is part of the extensive Supernova family, conceived to enrich the living room with balance, versatility, and refined character. Available in different heights and sizes, its square top with softly rounded corners introduces a sense of visual harmony, making it suitable both as a central coffee table and as a complementary side element.

The top can be executed in wood or stoneware, offering a refined selection of finishes that enhance the table's tactile and aesthetic appeal. Supporting the structure is a slender metal base whose legs rise elegantly to the height of the top, ending in distinctive exposed hemispherical heads. This iconic detail adds rhythm and identity to the design, combining rational geometry with subtle decorative expression. Used alone or combined with other Supernova elements, the square version brings structure, elegance, and compositional freedom to contemporary living spaces.

Made in Italy.

## *Finishes & Materials*

**Top:** Stoneware, Marble or CARB-02 certified wood particle board with Wood, Matt/Glossy Lacquered, Up Surfaces or Textured Finishes.

**Base:** Metal.
