

Bora

Design: Euroluce

Description

The Bora Chandelier showcases the artistic essence of the Bora collection, bringing together traditional craftsmanship and contemporary elegance in a sculptural lighting piece. Offered in refined finishes such as black nickel, shiny brown tin and satin gold, with other options available on request, the chandelier adapts seamlessly to both classic and modern interiors. Its decorative palette includes midnight blue, fumé bronze, rosaline and tiffany, paired with porcelain colors for rich, expressive combinations.

Developed by Euroluce Lampadari – Studio in Project, the chandelier features elements crafted in authentic Capodimonte porcelain, each one meticulously modeled by hand by skilled artisans. The metal components follow the same artisanal approach, ensuring visual continuity throughout the design. The glass element is made in Venice, while the central body in handblown glass is produced in Tuscany, affirming the chandelier's strong connection to Italy's most celebrated craft regions. A Swarovski pendant completes the composition with a refined, luminous sparkle that enhances both light and decorative presence.

Every detail reflects a pursuit of excellence in materials, proportions and handcrafted finishing, making the Bora Chandelier a signature piece defined by beauty, sophistication and artistic identity. Made in Italy

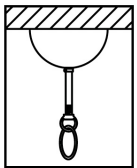

Light bulbs not included. UL Certified.

Equipped with double insulation or reinforced insulation.
