

Dely

Design: Euroluce

Description

The Dely Chandelier is a refined lighting piece that highlights the artistry of Italian craftsmanship. Its structure alternates handmade metal arms with handblown glass arms, creating a dynamic composition that enhances both form and light. The glass elements include crystal glasses with a balloton effect, a sculpted glass cup and a central section made of polyhedral pieces, all crafted in Veneto by master glassmakers. Decorative brass bushings add an elegant finishing touch.

The Dely collection is offered in transparent, rosaline, sheen effect and teal blue colors. In the Dely Shade version, the balloton glasses are replaced with cylindrical handmade lampshades. The model featured in photos uses the CIL 70/97 lampshade, with an antique pink wrinkled satin effect fabric. Designed for dining areas, living spaces and entryways, the Dely Chandelier brings a sophisticated blend of artistry and contemporary styling to any interior. Made in Italy

Light bulbs not included. UL Certified.

Equipped with double insulation or reinforced insulation.
