

## Iceberg

*Design: Euroluce*

### *Description*

The Iceberg collection, finished in elegant Ice White, brings together craftsmanship and contemporary design. Its satin white color highlights the purity of its form, while alternative colors can be specified for custom projects. Created by Euroluce Light of Italy together with Studio In Project, Iceberg is defined by its distinctive “cortex” glass effect, inspired by the natural irregularities of ice. Each arm, cylinder, pendant and central tube is handmade in Veneto, where master glassmakers shape components to achieve a refined textured surface. Minimal metal elements ensure that the glass remains the focus of the design, enhancing transparency, light diffusion and visual impact. The collection is offered in transparent satin decoration for conceptual continuity with real ice, and pendants are intentionally left transparent to amplify clarity and brightness. Custom decorations are available on request. With a commitment to perfection, attention to detail, premium materials and traditional Italian craftsmanship, Iceberg stands out as a high-quality lighting solution ideal for luxury interiors, hospitality spaces and modern residential projects. Made in Italy

Light bulbs not included. UL Certified.  
Equipped with double insulation or reinforced insulation.

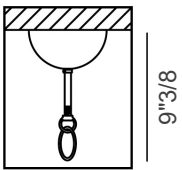

## Iceberg

### Dimensions

- 8 ARMS:** Ø34"5/8 x 31"3/8H (1 level)
- 12 ARMS:** Ø41"1/2 x 31"3/8H (2 levels: 8+4)
- 18 ARMS:** Ø41"1/2 x 31"3/8H (2 levels: 12+6)
