

Lita

Design: David Dolcini

Description

Lita is a decorative suspension lamp born from a refined design process that blends geometric textures, natural materials and poetic visual cues. Its opaline blown-glass diffuser features delicate vertical ridges that gradually fade, creating a warm, uniform and inviting light perfect for contemporary interiors. Paired with a brass structure or a white painted aluminum frame, Lita offers a strong material presence while preserving a timeless, handcrafted elegance.

This suspension lamp combines artisanal tradition with modern technical research, delivering a lighting solution that is both visually captivating and rich in tactile charm. Ideal for enhancing living rooms, dining areas and design-driven spaces. Made in Italy.
