

Soleil Noir

Design: Studio Odile Decq

Description

Soleil Noir is an avant-garde suspension lamp that plays with the poetic contrast of light and darkness, merging black and white in a bold, organic form. Suspended by a single asymmetrical cable, it maintains perfect balance through body thicknesses ranging from 3/8" to 1", creating a slim, aerial presence that seems to defy gravity with elegant restraint.

Made of molded expanded polyurethane, its hidden LED source sits inside a recessed black disk, spreading a uniform, indirect, diffused light across the surface. Atmospheric and sculptural, Soleil Noir brings a refined, celestial glow to modern living rooms, dining areas, and contemporary architectural spaces, a true statement piece inspired by the moment "when the Sun meets the Moon". Made in Italy.

Light Source:

LED 35W 1728lm 3000K CRI 80. Dimmable 0-10v. UL Approved.
