

Canna Nuda Suspension Lamp

Design: Piero Castiglioni & Roberto Menghi

Description

The Canna Nuda Suspension Lamp is a lighting project that investigates the relationship between form, material, and light across several distinct versions. In the sandblasted glass version, cylindrical shapes are used to diffuse light evenly and delicately.

These different approaches are unified within a single collection that embodies a synthesis of harmonious forms and versatile functionality. The modern Canna Nuda's design language remains consistent throughout, while its adaptability allows it to respond to a variety of lighting requirements and settings. Made in Italy.
