

Crown Plana Suspension Lamp

Design: Jehs + Laubs

Description

The modern Crown collection stands as a contemporary icon, echoing the refinement and grandeur of historic chandeliers while presenting a distinctly modern character. Its form draws inspiration from the intricate patterns of snowflakes, resulting in a design that is both visually striking and adaptable.

A key element of Crown's appeal is its modular construction, which makes it possible to create an extensive range of configurations. This structure allows for countless combinations of colors and sizes, enabling the piece to shift seamlessly between different settings while maintaining its unmistakable presence. Made in Italy.
