

# AM4 Suspension Lamp

*Design: F.Albini, F.Helg, A.Piva, M.Albini*

## *Description*

The Albini AM/AS collection embodies the rationalistic philosophy of the Milanese architect, translating it into a series of pieces defined by clarity, proportion, and essential forms. Created in 1969, the collection combines rigorously linear shapes with premium materials, most notably the hand-blown glass used for the diffusers, which highlights craftsmanship and precision. Conceived as a unified approach to lighting, the design was intended to harmonize the various volumes of an interior through a consistent formal language, extending seamlessly across ceiling, wall, floor, and table versions.
