

Claritas Floor Lamp

Design: Vico Magistretti

Description

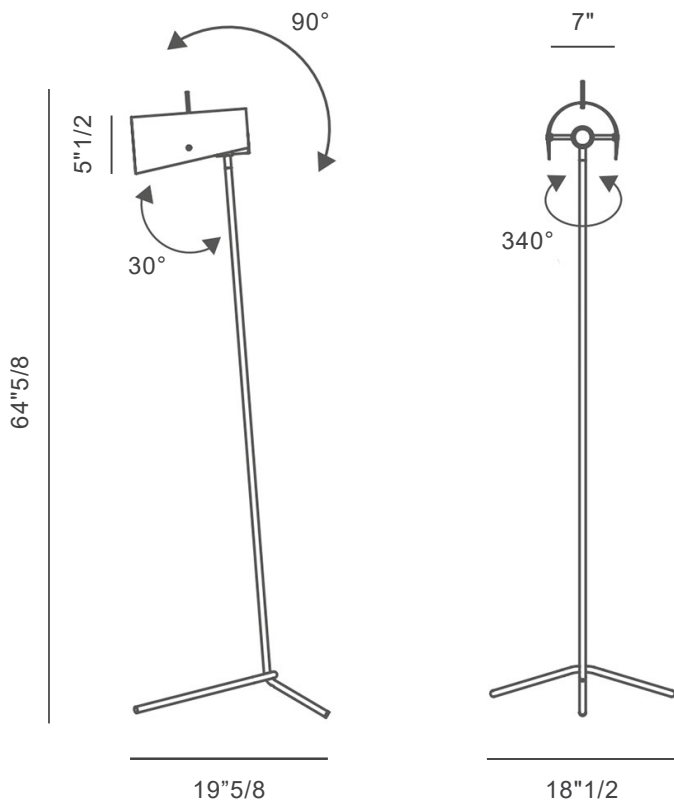

In 1946, Vico Magistretti conceived the modern Claritas floor lamp, his first lighting design, which conceptually aimed for clarity and brightness. In a context of reconstruction and reconversion of the war industry, for the first time Magistretti used bent metal tubes and a curved aluminium sheet as a reflector, which could be oriented and regulated, ensuring the desired lighting effect.

Claritas Floor Lamp

Dimensions

Size: 18"1/2W x 19"5/8D x 64"5/8H

Claritas Floor Lamp

Source	E26
Total power	150W
Emission	Diffused / Direct
Switching	Dimmable on cable, according to bulb
Tension	110V
IP class	IP20
Materials	Aluminum, Steel
Notes	Cable length 130", orientable
