

Ego

Description

The Ego sideboard blends refined craftsmanship with modern design, offering a striking storage solution for contemporary interiors. Available in two elegant configurations, it brings versatility, functionality, and strong visual impact to dining rooms, living spaces, or design-forward environments.

The first version features a blockboard ash wood structure with four hinged multicolored doors, each enhanced with brass inserts and burnished brass handles for a sophisticated contrast. The soft-closing system ensures smooth, silent operation, while the interior includes two ash blockboard shelves for practical and organized storage.

The second version pairs minimalist elegance with added functionality, showcasing two hinged doors in blockboard ash wood alongside two solid ash wood drawers, all with soft-closing mechanisms for everyday comfort. Inside, a single ash blockboard shelf provides ample room for tableware, accessories, and essentials.

Both models stand on varnished metal legs, offering stability and a contemporary aesthetic. Ego is the ideal modern wooden sideboard for those seeking style and versatility. Made in Italy.

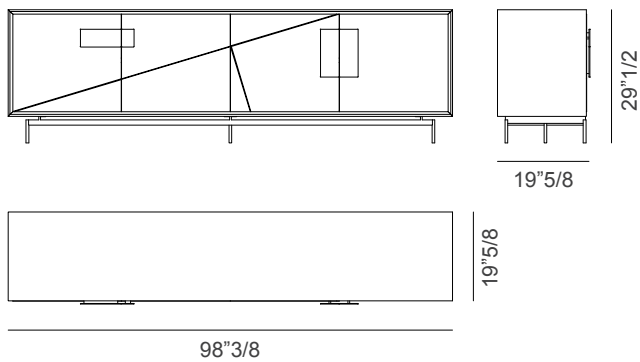

Ego
