

## Tidal

*Design: Needs Studio*

### *Description*

Designed in collaboration with Needs Studio, Tidal is a refined suspension lamp that combines high luminous efficiency with a fluid, expressive form. Inspired by the movement of tides, waves, and celestial bodies, its design is defined by asymmetrical rings that subtly change appearance when viewed from different angles, creating a dynamic visual experience from below. Available in both ceiling-mounted and pendant versions, Tidal adapts naturally to residential interiors, professional spaces, and contract environments. Whether installed as a single statement piece or repeated in rhythmic compositions, the collection offers a balance of decorative presence and functional lighting, enhancing spaces through light, form, and movement. Made in Italy.

IP20. CE, EAC and ETL Certification. Energy efficiency C.  
Dimmable TRIAC. MacAdam 3-Step.  
LED and driver included. Light bulbs not included.
