

Allaperto

Design: Matteo Thun & Antonio Rodriguez

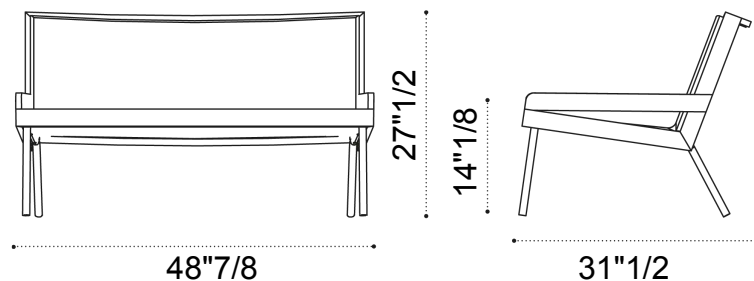

Description

This two-seater sofa is built around a robust, square-profile frame crafted from metal and high-quality teak. It features generous, ergonomic proportions with a low seat height that encourages a relaxed posture. The structure is engineered for high-performance durability and weather resistance across varied settings, including heavy-traffic hospitality projects. Proudly Made in Italy, the sofa reflects a commitment to sustainability through the use of FSC-certified wood and recyclable technical materials. Made in Italy.
