

Freedom *Design: Ethimo Studio*

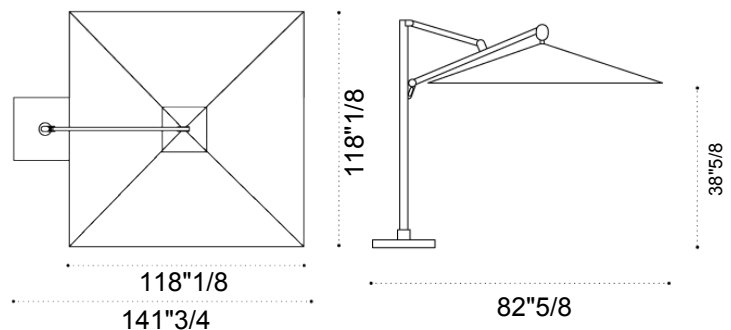

Description

This adjustable square umbrella is constructed with a robust metal frame made of anodized aluminum. The large canopy is available in high-performance outdoor fabric, polyester or acrylic, designed for durability and UV protection. It features a decentralized side pole to maximize the usable space underneath and is integrated with a heavy base on wheels for stability and mobility. The mechanical system includes a manual crank for smooth opening and closing. Engineered to withstand outdoor conditions with style, this piece is proudly Made in Italy.
