

Sling *Design: Studiopepe*

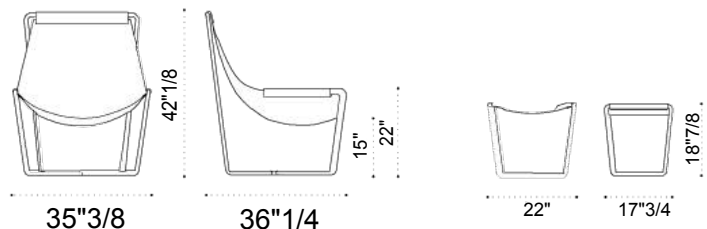

Description

This lounge chair is built with a curved metal structure made of stainless steel tubing, available in various shades including bronze and brass-plated finishes. The ergonomic "sling" seat is crafted from high-performance fabric, specifically using polyolefin or acrylic materials that hug the contours of the body for extraordinary comfort. The design is engineered for both indoor and outdoor use, offering high resistance to weather conditions while maintaining a soft-touch texture. Proudly Made in Italy.
