

Inlaid Bar Cabinet

Design: Bellotti Ezio Team

Description

The contemporary Inlaid Bar cabinet is crafted in maple, enriched with canaletto walnut and blue Bolivar inlays, and finished with a glossy lacquer. The interior is organized with drawers and glass shelves, offering a refined and functional layout. The contrast between materials and finishes enhances the cabinet's decorative character. The finely carved base features a LAB1 finish, with distressed blue French tempera lacquer applied over a gold leaf background. This detail adds depth and visual richness, completing the cabinet with a distinctive artisanal touch.
