

Brick D

Design: Giorgio Bonaguro

Description

Brick D is a modern sideboard characterized by asymmetrically arranged storage modules that create a dynamic interplay of volumes. The contrast between the large drawer units and the base transforms this piece into a functional sculpture, ideal for defining living rooms, dining areas, or refined bedroom spaces.

Available with a lacquered wooden base and lacquered or ash wood drawers, or fully lacquered for a sleek look, Brick D stands out for its essential geometric lines, softly rounded corners, and precise surface finishes. Made in Italy.

Dimensions

58"1/4W x 19"5/8D x 29"1/2H
