

## Double R

*Design: Simone Bonanni*

### *Description*

The Double R fixed dining table features two sculptural bases positioned side by side, forming a single architectural structure that supports an elegant round top. Its design explores geometric balance and the interaction of volumes, creating a bold yet harmonious presence within contemporary interiors.

Available with a base in ash wood or lacquered finish and a top in ash, lacquered, or optional marble, Double R offers refined material combinations. The subtop, matching the bases, enhances visual continuity, while the blend of impressive volumes and soft contours makes this modern round dining table a sophisticated centerpiece for stylish dining spaces. Made in Italy.

### *Dimensions*

Ø63" x 30"H
