

Double

Design: Simone Bonanni

Description

The Double fixed dining table is defined by its distinctive double sculptural base, positioned at varying distances to support different top sizes and create a dynamic architectural presence. Its design explores geometric balance while subtly playing with volume and spatial perception, resulting in a refined yet expressive silhouette.

Available with a base in ash wood or lacquered finish, and a top in ash, lacquered, or optional marble, Double offers versatile combinations to suit contemporary interiors. The subtop, matching the 2 bases, enhances visual harmony, while the blend of generous volumes and soft contours makes this modern dining table a striking centerpiece for elegant dining rooms. Made in Italy.
