

## Erice

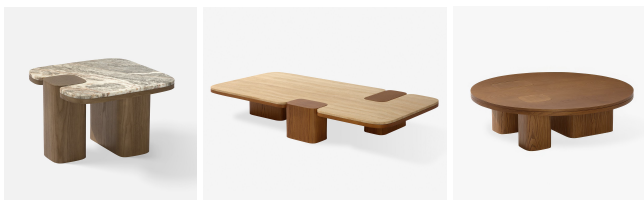

*Design: Giorgio Bonaguro*

### Description

Erice is a sculptural coffee table collection defined by bold geometry and refined craftsmanship. Crafted with an ash wood structure and available with an optional marble top, the design features wide monolithic legs and beveled tops combined in an apparently irregular composition. The geometric connections recall the interlocking stones of cyclopean walls, creating a dynamic and architectural presence in any contemporary living room.

Designed with a distinctive two-level top, a wooden undertop paired with a marble or wooden surface, Erice balances material contrast and visual depth. The Erice R model, a low circular coffee table, is perfect as a standalone statement piece or combined with the square and rectangular versions for layered compositions. Customizable wood finishes and a selection of marble types and colors make it a versatile and sophisticated centerpiece for modern interiors. Made in Italy.

### Dimensions

**Erice S - Square top:**  
25"5/8W x 25"5/8D x 17"H

**Erice XL - Rectangular top:**  
70"7/8W x 35"3/8D x 10"5/8H

**Erice R - Round top:**  
Ø47"1/4 x 13"3/4H
